

application.AddProductUse  
Case.execute

application.SellProductUse  
Case.execute

domain.product.Product.getName

```
graph LR; A["application.AddProductUse<br/>Case.execute"] --> D["domain.product.Product.getName"]; B["application.SellProductUse<br/>Case.execute"] --> D;
```

The diagram illustrates a dependency or call relationship. On the left, there are two white rectangular boxes with black borders. The top box contains the text 'application.AddProductUse' on the first line and 'Case.execute' on the second line. The bottom box contains 'application.SellProductUse' on the first line and 'Case.execute' on the second line. Two blue arrows originate from the right side of these boxes. The arrow from the top box points to the left side of a gray rectangular box on the right. The arrow from the bottom box also points to the left side of the same gray box. The gray box contains the text 'domain.product.Product.getName'.
