

src/application/DeleteProduct
UseCase.java

```
graph TD; A["src/application/DeleteProduct UseCase.java"] --> B["application.ports.Product Repository"]; A --> C["domain.product.Product"]
```

The diagram illustrates the dependencies of the `src/application/DeleteProduct UseCase.java` file. It is represented by a dark gray box at the top. Two blue arrows originate from the bottom of this box and point to two other boxes below it. The left box, labeled `application.ports.Product Repository`, is light gray. The right box, labeled `domain.product.Product`, is a medium gray. This visualizes that the `DeleteProduct UseCase` depends on both the `Product Repository` and the `Product` entity.

application.ports.Product
Repository

domain.product.Product
